## RULES

- 1 The Show will be run in accordance with the FBAS show rules.
- 2 The health and wellbeing of the fish at the Show are paramount.
- 3 Gravel is NOT allowed except in class Z
- 4 All pre-booked entries (before 5pm on Saturday 11th August) are 40p. Entries received after this or on Show day are 50p each, No further charges per exhibitor after 10 entries (ie Max cost £4.00 or £5.00)
- 5 All breeders classes to consist of FOUR fish, no more than 14 months old on the day of the Show.
- 6 The organisers will not be held responsible for any problems, loss or damage to an exhibit for whatever the cause.
- 7 Water – The use of local water is entirely at the risk of the exhibitor, and water quality is the responsibility of the exhibitor. It is strongly advised that exhibitors bring sufficient suitable water with them,
- 8 De-benching will only be permitted at the discretion of the organiser.
- 9 Benching from 10.00am – 12.00am. Judging will commence at 12.00 prompt.
- 10 DEFRA Listed Species – It is assumed by the organisers that owners of entries which require a DEFRA licence hold such a licence.

# FLUVAL EDGE

ADD DESIGN TO YOUR LIFESTYLE

Fluval EDGE brings an exciting new look to aquatics, combining the most modern aquarium design with the beauty of nature. The result is an utterly stylish complement to any home or office space.

### 360° Viewing

Glass top for spectacular views from all angles and less evaporation for reduced maintenance

### Clear Healthy Water

Easy to use cascading flow filter with 3 stage filtration for a healthy, oxygenated environment

### Clean Lines

The filter and retractable lighting modules are hidden from view for a clean, modern look

Created by experts to bring out the best in your fish

Superior to flakes

Excellent fish condition

Two formulas in one

Better water quality

Fish prefer Crisps!

The health and condition of your fish directly depends on the diet you choose for them. That's why Tetra's industry-leading research laboratories developed TetraPro Crisps, to overcome the drawbacks of flake foods. Produced at a lower temperature, and using a completely different production process, TetraPro offers better nutrition for unrivalled health and condition. It also results in less waste production, for improved water quality and clarity. The two-colour process used to make TetraPro also allows the introduction of two formulas into one food, for concentrated benefits on top of a complete, balanced diet. What's more, fish prefer Crisps to flakes, meaning they get a diet they love, as well as one that keeps them in great shape.
