

FEMALE GUPPIES

COFERTAIL

Caudal fin shaped as illustrated. Dorsal fin pointed, terminating before the caudal peduncle.

SPEARTAIL

Caudal fin spear shaped and tapering to a point as illustrated. Dorsal fin long and narrow, tapering to a point and terminating approximately above the widest part of the caudal. Particular attention should be paid to the shape of the anal fin which should be longer on both leading and trailing edges making the lower edge concave in appearance.
