stylish simplicity

The Fluval Roma aquarium is designed on clean, simple lines to bring sophistication to modern home decor. With a choice of four sizes, each with co-ordinating furniture, the Fluval Roma Collection has something for everyone.

FLUVAL Roma COLLECTION

FLUVAL ROMA COLLECTION

ITALIAN DESIGNER COLLECTION

Light Oak/Mocha

Black/Silver

Remember exploring rock pools when you were young? Childhood is often where our fascination for the underwater world begins and, for most of us, it never ends. Bringing that world into our home is easy with Fluval and the Roma Collection makes it possible for anyone to create a living, breathing work of art which not only provides a fabulous insight into the natural world, but also co-ordinates with today's modern interiors. With a choice of 4 sizes there's a model to suit even small spaces and tight budgets.

Fluval Roma Aquariums*
The Roma 90 and 125 are powered by a Fluval Internal Filter.
The Roma 200 and 240 are powered by a Fluval External Filter.

All aquariums are made of glass and are manufactured under strict conditions to ensure quality, strength and durability. Fluval Roma aquariums must only be used with the equivalent Fluval Roma cabinets.

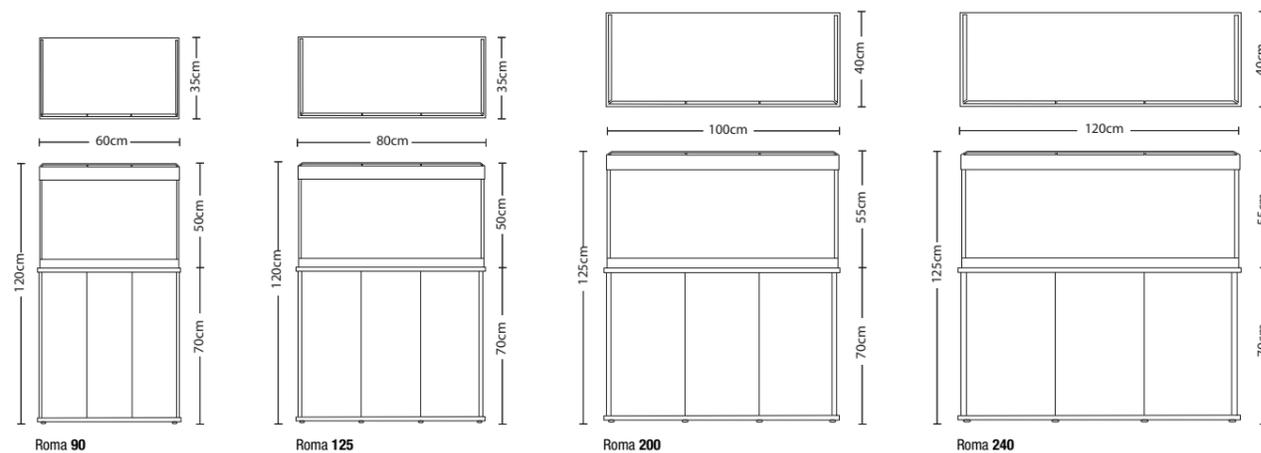

Canopy*
The canopy is finished in black and comes with a choice of light oak or silver trim to co-ordinate with the cabinet colour of your choice. Roma canopies feature scored cutout sections at the rear for external filter hose connections **1** and power cables **2**.

Cabinets*
Roma cabinets are designed to completely co-ordinate with Roma aquariums. Every cabinet has 2 reversible doors, allowing you to choose the one to match your colour scheme at initial construction. Stylish flush doors have push release opening. Cabinet colour options are as shown above: Light Oak/Mocha and Black/Silver.

*See page 16 for full product details.

graceful curves

FLUVAL Vicenza COLLECTION

With graceful curves the Fluval Vicenza bow-fronted aquarium adds a beautiful dimension to flat walls. Designed to enhance modern decor with a choice of finishes to co-ordinate with today's look.

FLUVAL VICENZA

COLLECTION

ITALIAN DESIGNER COLLECTION

Light Oak/Mocha

Black/Silver

Starting a new aquarium is an exciting experience and the waterscapes you create can be as different and diverse as the fish and plants you choose to keep in it. With a choice of 2 sizes the Vicenza bow fronted aquarium brings Italian style into your home and is the perfect way to display your aquatic creation, whether it's cool and minimal or lush and exotic.

Vicenza Aquariums*

The Vicenza 180 and 260 are powered by a Fluval External Filter. The filter hoses connect directly through the aquarium base in an innovative feature which means less clutter and less mess ¹. Without any bulky external connections the whole unit can fit flush to the wall.

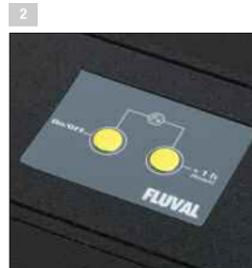

All aquariums are made of glass and are manufactured under strict conditions to ensure quality, strength and durability. Fluval Vicenza aquariums must only be used with the equivalent Fluval Vicenza cabinets.

Canopy*

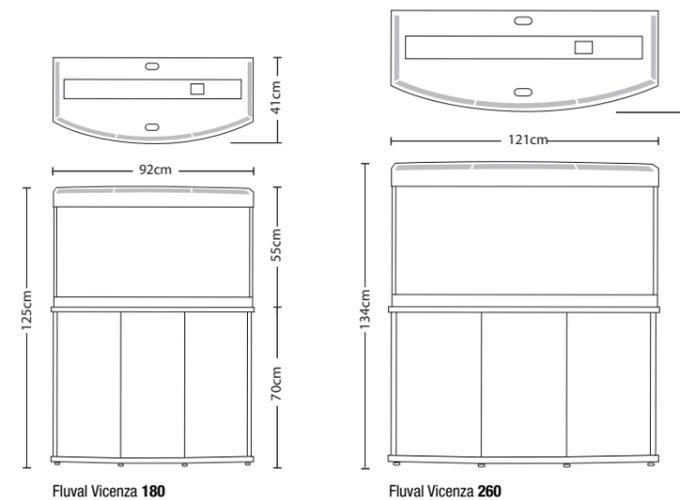

The canopy is finished in black and comes with a choice of light oak or silver trim to co-ordinate with the cabinet colour of your choice. Vicenza canopies house a powerful GLO T5 high output lighting system, easily controlled with the integrated light timer ².

Cabinets*

Vicenza cabinets are designed to completely co-ordinate with Vicenza aquariums. Every cabinet has 2 reversible doors, allowing you to choose the one to match your colour scheme at initial construction. Stylish flush doors have push release opening. Cabinet colour options are as shown above: Light Oak/Mocha and Black/Silver

ITALIAN DESIGNER COLLECTION

perfect space

FLUVAL Venezia

COLLECTION

Spaces glow and dull corners come to life with light, movement and colour. That's the magic of the Fluval Venezia corner aquarium, designed to make a bold, beautiful impression.

FLUVAL Venezia COLLECTION

Light Oak/Mocha

Black/Silver

The Venezia corner aquarium is guaranteed to make a stunning addition to any interior space. Corners are sometimes neglected areas, but they come to life with the addition of the Fluval Venezia, giving an unrivalled view of the aquarium from all angles. Venezia is available in 2 sizes and includes the largest aquarium in the Fluval range.

Venezia Aquariums*

The Venezia 190 and 350 are powered by a Fluval external filter. The filter hoses connect directly through the aquarium base in an innovative feature which means less clutter and less mess ¹. Without any bulky external connections the whole unit can fit flush into the corner.

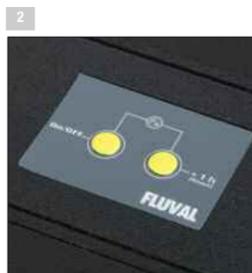

All aquariums are made of glass and are manufactured under strict conditions to ensure quality, strength and durability. Fluval Venezia aquariums must only be used with the equivalent Fluval Venezia cabinets.

Canopy*

The canopy is finished in black and comes with a choice of light oak or silver trim to co-ordinate with the cabinet colour of your choice. Venezia canopies† house a powerful GLO T5 high output lighting system, easily controlled with the integrated light timer ².

- Push release doors - streamlined style without handles
- Sturdy construction, specially made to support the weight of an aquarium

Components

Each Fluval aquarium set contains a selection of the worlds best selling aquarium products

8

9

1 FLUVAL Internal Filters
(included with Roma models 90 and 125)
Discreet, but powerful, the Fluval Plus internal filter combines mechanical, biological and chemical filtration within a fully submersible unit. Operates quietly and effectively, removing both solid and liquid wastes. Simple to install and maintain.

2 FLUVAL External Filters
(included with Roma models 200, 240, Vicenza 180, 260 and Venezia 190, 350)
The Fluval external filter is powerful and reliable. Its multi-stage system allows pro-active control of water characteristics. Operates outside the aquarium where it is easy to access for cleaning and maintenance.

3 GLO Fluorescent Aquarium Lamps
Specially designed aquarium lighting (included with Roma)
GLO T8 fluorescent lighting provides essential light stimulation to fish and plants. (included with Vicenza and Venezia)
GLO T5 super high output lamps create a stunning display.
NB. Venezia 350 also uses 2 additional standard T5 light tubes.

4 FLUVAL/AquaClear Heater
Advanced heat technology in a fully submersible heater. Provides accurate readings for even heat dispersal.

5 NUTRAFIN Aqua Plus
Nutrafin Aqua Plus neutralises the chlorine and chloramine in tap water to make it safe for fish to live in. It also contains a pure herbal extract, known to be calming to fish.

6 NUTRAFIN Cycle
Nutrafin Cycle is a super concentrated formula of beneficial bacteria which, when added regularly helps to quickly 'mature' the water conditions for the introduction of fish.

7 NUTRAFIN Max Tropical Fish Food
Quality food providing a balanced diet for tropical fish which also helps to enhance their vibrant colours. Nutrafin Max is formulated to provide precisely the right amount of phosphorus which helps to control algae and reduces the amount of fish wastes.

8 Marina LCD Digital Thermometer
An accurate, easy-to-read LCD display.

9 Fluval Aquarium Care Guide
Essential guide for setting up and looking after an aquarium.

* Vicenza and Venezia only

Creativity with nature

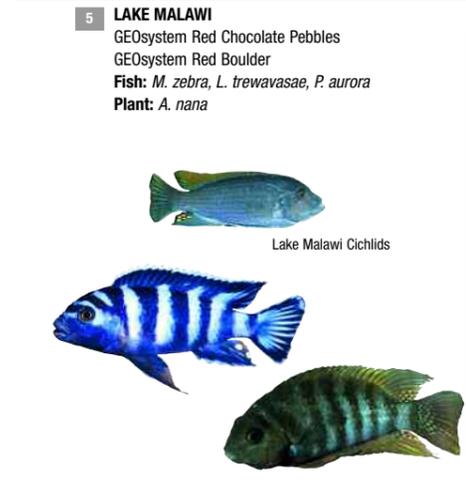

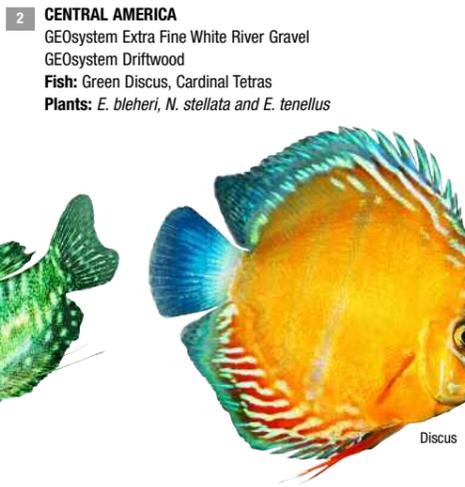

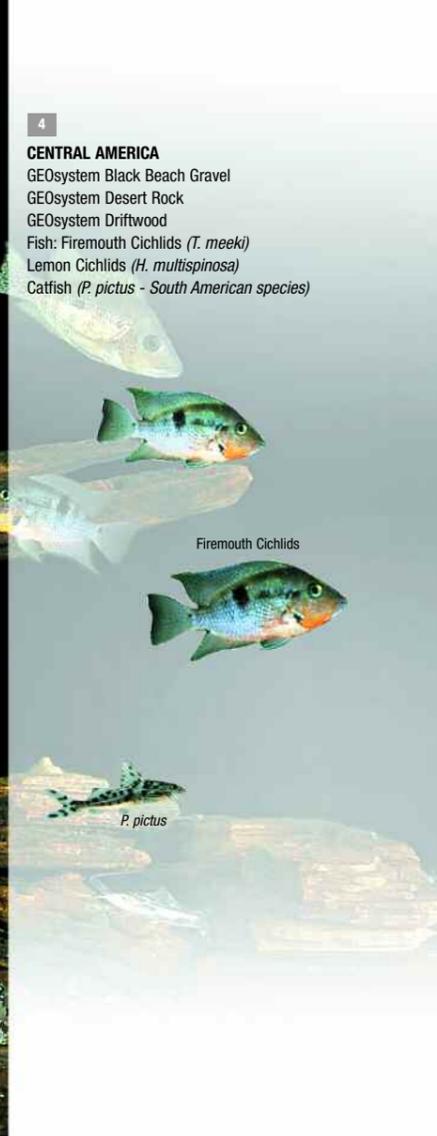

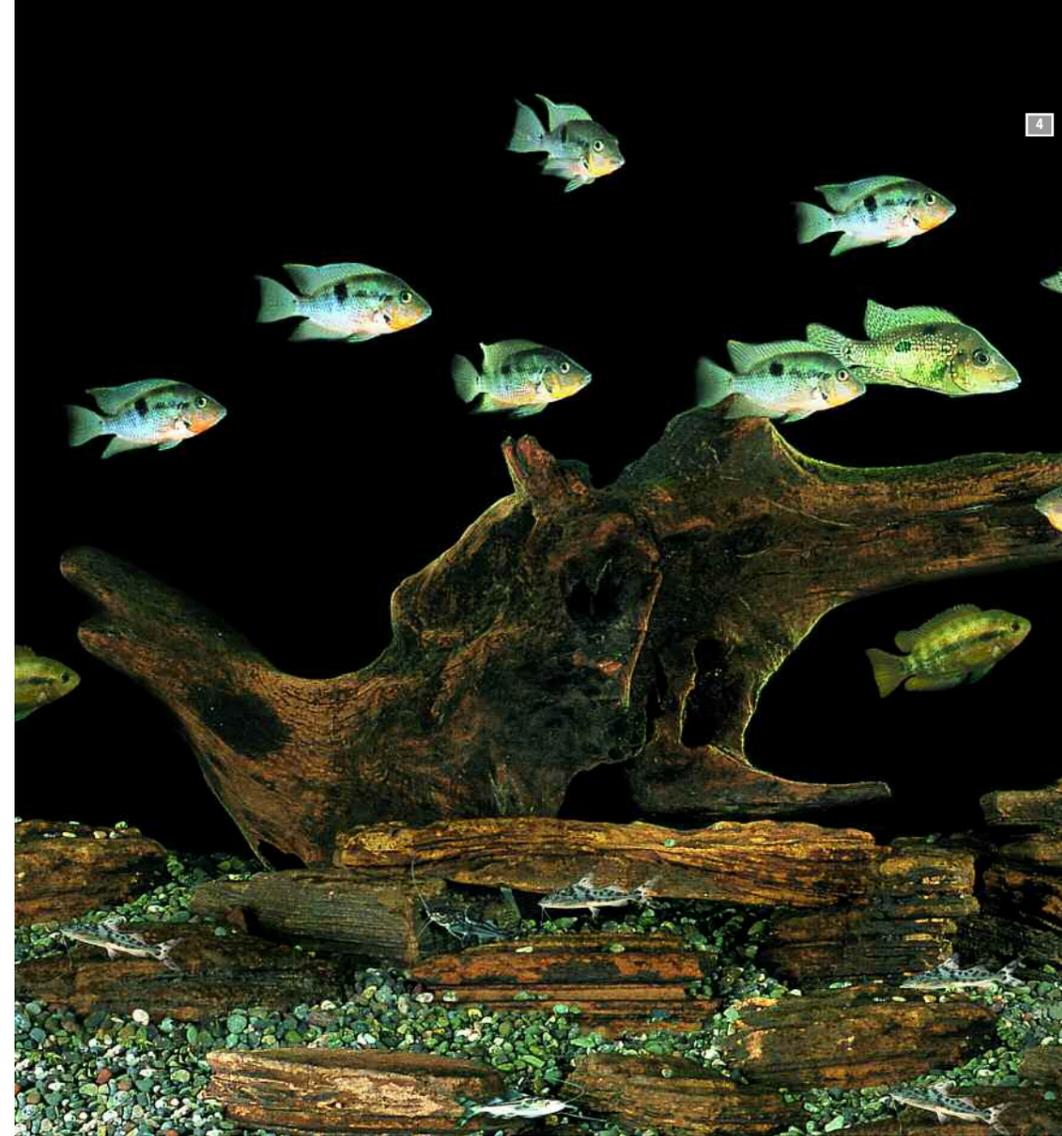

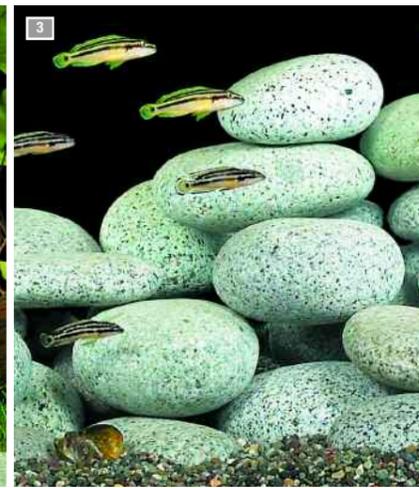

Every Fluval designer aquarium provides an ideal environment to support a living ecosystem and, for you, setting it up can be a satisfying and enjoyably creative experience.

Depending on the kind of aquarium you want to create, there are many ways to achieve a look which reflects your own individual style using gravel, rocks, plants and fish. A minimal design with a few interesting rock shapes and a single fish species can make a stunningly simple display. Alternatively, you may want something lush and tropical to bring an exotic, opulent feel to a room.

GEOsystem

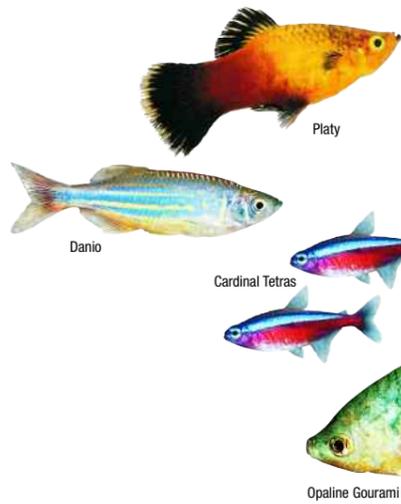

GEOsystem is a range of aquarium-friendly decorations which pay particular attention to recreating the different kinds of native environments of wild fish. With a huge choice of decorations like sand, gravel, pebbles, rocks and driftwood; and a careful selection of fish and plant species, you can recreate a riverbed in Central America or an underwater scene from a Rift Valley lake - the possibilities are fascinating!

1 SOUTH ASIA
 GEOsystem Extra Fine Brown River Gravel
 GEOsystem Black Beach Gravel
 GEOsystem Driftwood
Fish: Opaline Gourami (*T. trichopterus*)
 Clown Loach (*B. macracanthus*)
 Leopard Danio (*D. frankei*)
Plants: *M. pteropus*, *R. indica*, *C. beckettii*

4 CENTRAL AMERICA
 GEOsystem Black Beach Gravel
 GEOsystem Desert Rock
 GEOsystem Driftwood
Fish: Firemouth Cichlids (*T. meeki*)
 Lemon Cichlids (*H. multispinosa*)
 Catfish (*P. pictus* - South American species)

6 CENTRAL AMERICA
 GEOsystem Extra Fine White River Gravel
 GEOsystem Aquascape
Fish: Swordtails (*X. helleri*), Platies (*X. maculatus*)
 Guppies (*P. reticulata*)
Plants: *E. quadricostatus*, *B. carolina*

Choosing the right location

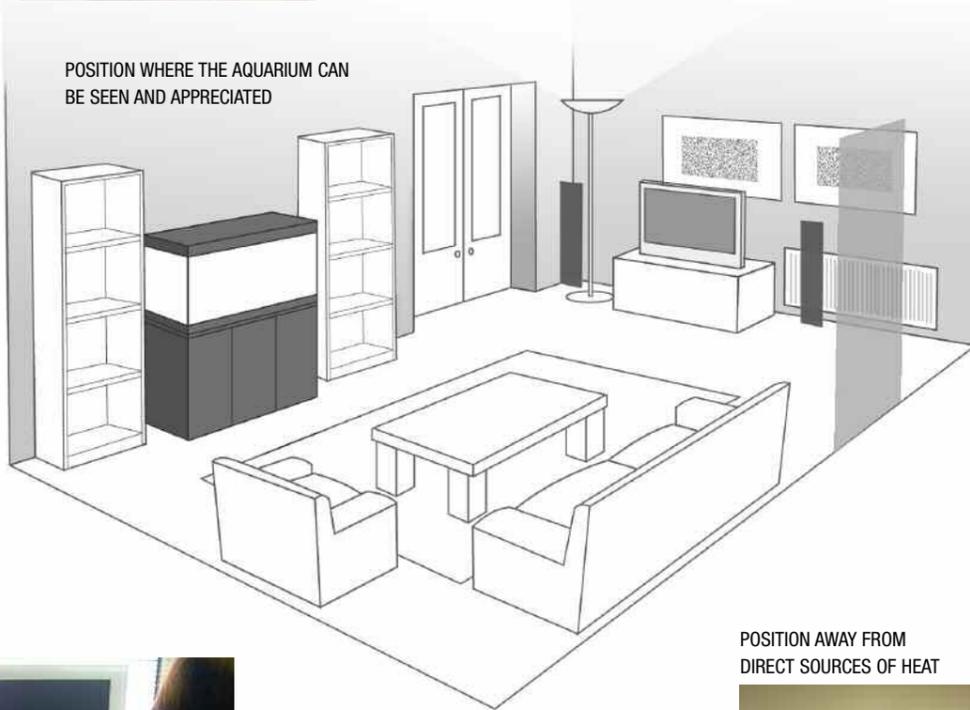

POSITION AWAY FROM DIRECT SUNLIGHT

POSITION AWAY FROM TV'S, HI-FI EQUIPMENT AND ANY SOURCES OF SOUND AND VIBRATION

POSITION WHERE THE AQUARIUM CAN BE SEEN AND APPRECIATED

POSITION AWAY FROM DIRECT SOURCES OF HEAT

POSITION CLOSE TO A PLUG SOCKET

POSITION AWAY FROM COMPUTER EQUIPMENT AND OTHER ELECTRICAL APPLIANCES WHICH MAY BE SERIOUSLY DAMAGED BY WATER SPILLAGES

Planning

Deciding where your aquarium is going to live is an important decision and deserves some preparation and thought. Once the tank is fully set up with water and decorations it cannot be moved. The only alternative is to completely empty and dismantle it to start again in a new location - definitely NOT a good start to your new aquatic hobby!

Choosing the right place also depends on various factors which may have undesirable effects on the aquarium conditions. Radiators, sunny windows, fireplaces and other sources of heat should be avoided. TV's, speakers, hi-fi and any other sources of sound and vibration should be sited away from the aquarium as this will cause distress to the fish.

Location

Study, dining room, living room, entrance hall - wherever its final position you can be sure that your aquarium will attract interest from visitors and children. Be careful if you are considering using a conservatory - areas with temperature fluctuations are inadvisable. Don't hide it behind other furniture either- it deserves to be seen in pride of place.

Use the room planner overleaf to help work out a good position. You may want to change the existing furniture arrangement to accommodate it too.

Power

Items of electrical equipment need access to mains power, so bear this in mind when choosing a site. Make sure you can reach the socket easily. Don't position too close to other electrical appliances where water spills may cause serious damage or safety hazards.

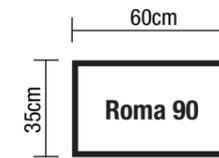

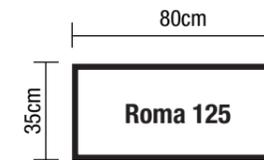

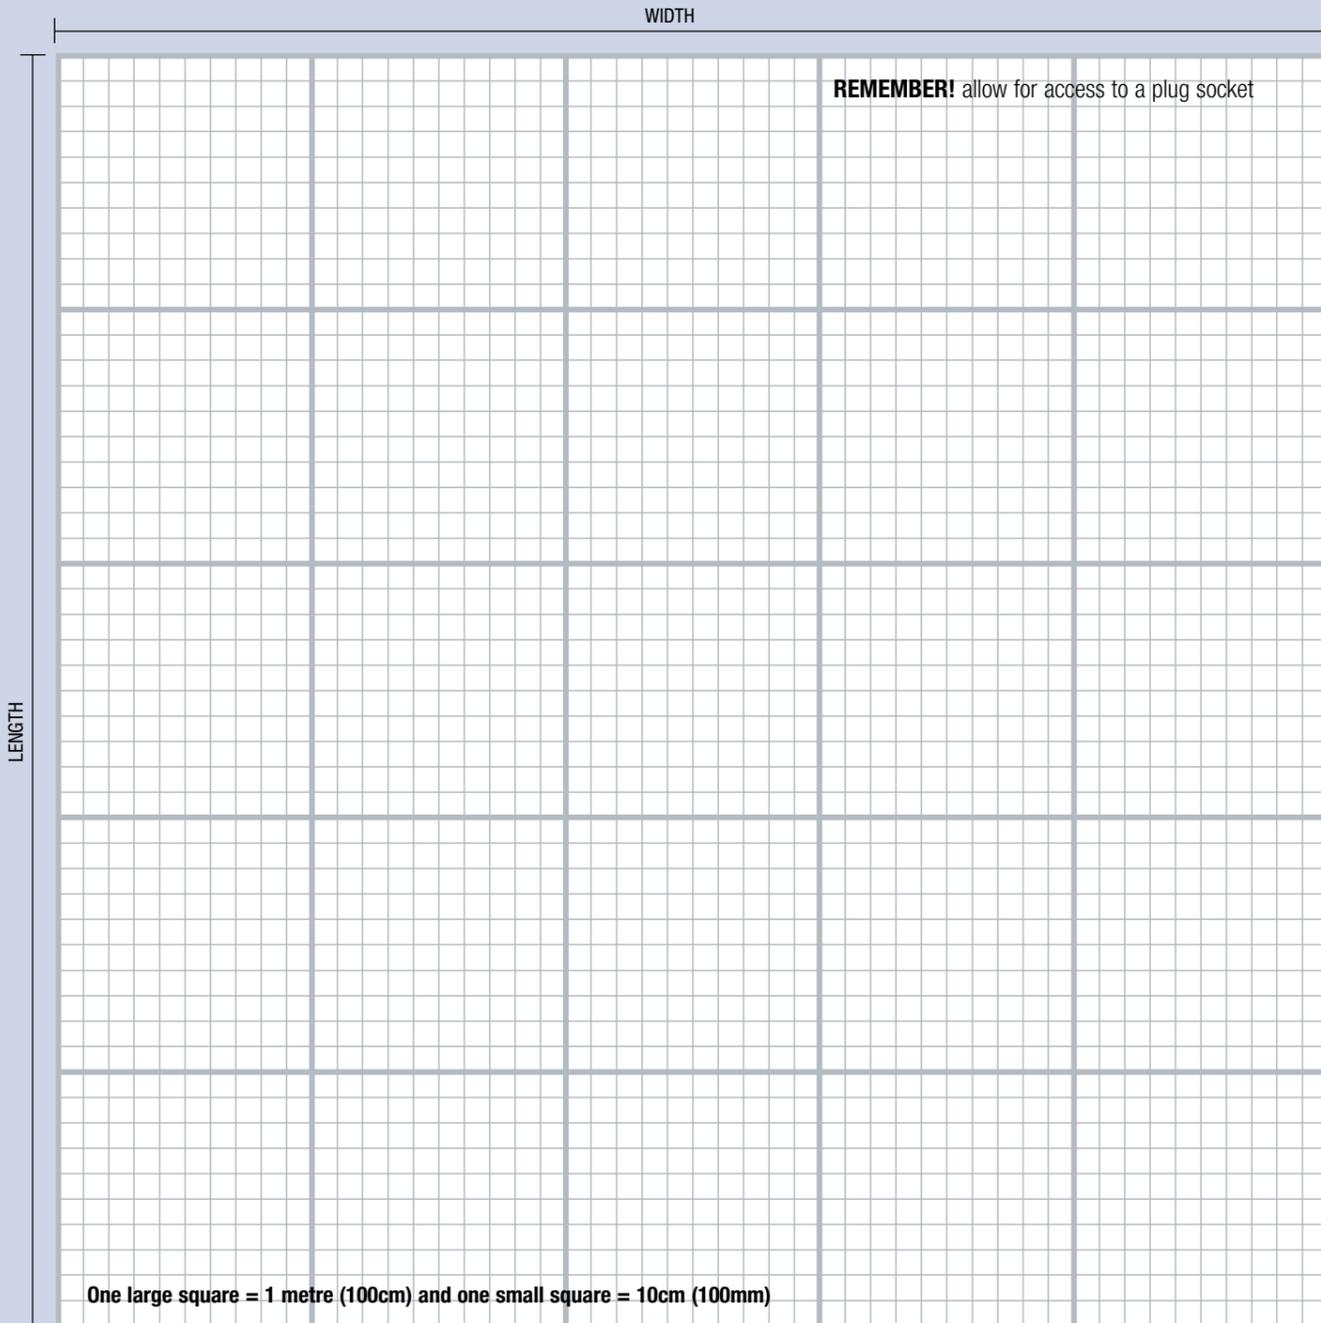

Weight

Water is extremely heavy - around 1 kilo per litre. Even the smallest Roma aquarium holds 90 litres - around 14 stones! - and that's before adding any gravel or rocks! Give some thought to the flooring too - is it strong enough to support the combined weight of a filled aquarium and cabinet?

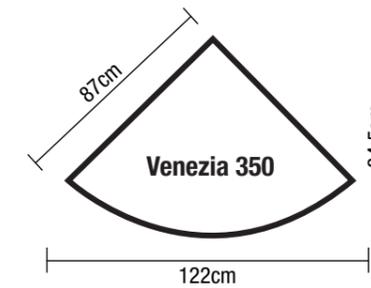

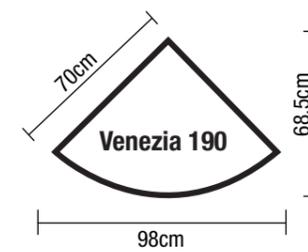

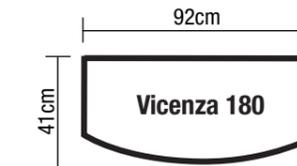

POSITION AWAY FROM DRAUGHTS

Room Planner

Use tracing paper or cutout the shapes to lay over the graph and indicate the dimensions of the room or area where you plan to put the aquarium. Mark the sizes and positions of principal features including chimney breasts, alcoves, doors, windows, plug sockets and sloping ceilings and any other features which may affect the positioning of the aquarium unit.

The graph will help you to plan the location of your aquarium. The aquarium drawings above are drawn to the same scale as the graph (one small square = 10cm (100mm) so you can work out how everything fits.
